From the Fall Cheminot Nurses Training Report

Locale 542 submitted six applications for Grand Nurses Training funding for scholarships. Applications were reviewed and discussed by committee members. A motion was offered and passed to provide each applicant \$300.00. This leaves \$1,200.00 for the year which can be provided.

I have 2010 Nurses Training pins available for \$2.00 each. While I only ordered 100 initially, I can get more if more are needed. This starts the new year for Grand nurses training scholarships, or grants.

The Grand report submitted 2009 showed six locale sponsoring nurses, twenty one total students in training, thirteen nurses graduating and \$9,050.00 expended for the year. Not all Locales provided annual reports. Remember, National only recognizes RN's for nurses training reporting and does not provide any Boland Trust Funds for other than RN's.

From the Texas Voyager News (May – Aug 2009)

During the past year only \$2000.00 was distributed from Grand for nursing scholarships or grants. Each year \$3000.00 is available for distribution. To qualify an applicant must be sponsored by a Voiture Locale which had established its own nurses training budget, expended that entire amount and the applicant must not have received other 40&8 funding during the year or during that school semester. Application is made using the Nationale Boland Trust white application form, which may be obtained from Nationale.
